

# COSMIC OUTDOOR PING PONG TABLE

The Cosmic Outdoor Ping Pong Table is our completely new outdoor ping pong table made out of 1/2" terrazzo seamless nonporous surface. The 1/2" thick keeps the table light enough to move yet solid enough to not break. The top is super durable, fire resistant, renewable/repairable and will last for years. The centerline is a colored acrylic which ties into the color of the terrazzo top. The bounce on these tables is perfect and built for years of play as with all our tables.

The net is the same colored acrylic, with a Woolsey design and our logo, with terrazzo pieces that allow for easy on/off to transfer from dining to ping pong in a couple of minutes. Seats 8-10 people.

The steel base has been metalized (sandblasted, sealed with zinc, and then powder coated) which offers supreme corrosion and rust protection for the outdoor environment. Of course, this table would be perfect for indoors too, or a hybrid table based on your needs and the season.

Available in a myriad of terrazzo tops, as well as any powder coat color for the steel base.

A regulation size steel net is easily mounted/unmounted via quick bolts to the table. The table comes with two custom-made walnut paddles and 3 star Japanese balls.

Dimensions: 108" x 60" x 30" tall (Regulation table size)

Lead time is around 8 weeks.

Designed and crafted in California.

# BUILT TO PERFORM IN ALL ELEMENTS

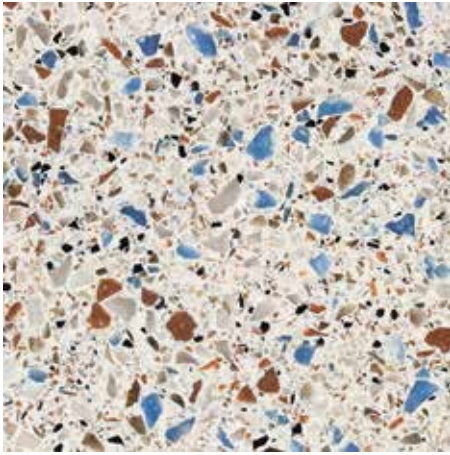

We thought of everything when designing our outdoor ping pong tables. Snow, wind, rain, sun.

This can handle it and perform well.

Our tables comes with a waterproof, snow-proof, and windproof magnetized cover to lock in over the table and net when your table is not in use.
