

## RELAXATION STATION DAYBED

Something to believe in. We created the Relaxation Station Daybed to pay homage to the art of relaxation because we're firm believers that some of the best things in life can be done lying down. It's the worst of pieces you look at or lie on and wonder how life ever went on without it. Make a room, divide it, use it as a guest bed, or your portal to a better state of mind. It can be whatever you want it to be, but we know it's going to be good.

Crafted from black walnut (or white oak or maple), with exquisite through tenon detailing on each of the six legs. Because we believe in making it as comfortable as it is classy, we topped it with a 5" memory foam pad that is quite possibly more luxe than your actual bed. It also includes an adjustable bolster to be used as a bolster or leg support. Now all you have to do is relax.
