

DREAMER'S CHAIR

A chair that may incline you to steal it if you are sitting in one you do not own. Crafted from solid American black walnut, the Dreamer's Chair has subtle details to compliment its mid-century inspired design. Brass rods elegantly lock in the backrests, the armrests have a subtle hand carved indentation for your arm to rest comfortably on, and the back cushion snaps onto the walnut backrests. No element was left untouched. We meticulously prototyped and improved this chair over the course of several months to get it just right. So comfy you will buy one, and then likely be back for another.

Any upholstery available.

We offer a COM (Customer's Own Material/Leather)

Overall Dims: 31" L x 28" W x 29" H
