

NEO POOL TABLE

Sean Woolsey designed the Neo Pool Table as an expression of his continual pursuit of excellent craftsmanship, design evolution and innovation. This latest, luxurious pool table from Woolsey Studio pays homage to the art deco period with strength of line and rhythmic, repetitive geometric shapes.

The Neo will provide the serious billiard player decades of enjoyment on a stunning table with the finest in craftsmanship and beauty.

Sean Woolsey has an obsession with design details. Each pool table leg is miter wrapped with consistent grain, while showcasing a V groove detail throughout the leg. Each leg is 12" square.

The table aprons have matching V grooves in the apron around the pool table, adding another cohesive element of texture to the table.

The pockets are handmade and hand stitched leather which are inlaid flush into the top of the pool table rails. The leather is available in tobacco or black. The sights are triangles that are black or leather to match the leather pockets.

The game table is finished in either our in house clear coat or blackened white oak + clear coat.

The table comes with an exclusive pro ball set, a white oak triangle, 2 cue sticks, and plenty of chalk.

Add ons available:

+ Wall rack to elegantly display and hold all your cues, balls, triangle, and chalk.

+ Split top wood or glass conversion kit to go from pool to ping pong in minutes.

Regulation size: 8-foot pool table.

Overall size of table is 104.5" x 60.5" x 30.5".

Playable surface area is 88" x 44" (standard 8' size)

SEAN WOOLSEY STUDIO

Playing surface dimensions:

- 7 foot table • 39" x 78"
- 8 foot table • 44" x 88"
- 9 foot table • 50" x 100"

ADD ON A WOOLSEY CUE WALL RACK

Every pool table needs a rack to store and display your cues, triangle, chalk and balls. We decided to make ours a beautiful cabinet that is as functional as it is beautiful, everything neatly organized and off the ground. This was designed to perfectly dovetail with our Pool Table.

The wall rack can be wall-mounted in minutes with the French cleat system and hardware included. The rack is made of an American black walnut (with maple splines), brass dowels, and the same felt (your choice of color) we use on our pool table.

Walnut door has a magnetic push latch and opens buttery smooth a full 180 degrees on brass door hinges

Finished with a natural, food-safe, hand-rubbed oil and wax finish.

Dimensions: 72" T x 24" W x 4" D

ADD ON A CONVERSION TOP

Want both pool and ping pong?

We've got you covered.

We offer a glass or wood conversion table top/ping top for the Woolsey Pool Table. The glass top (2 pieces) is tempered glass with a grey tint or can be clear. The conversion top installs easily in a matter of minutes. It is ping pong ITTF regulation size of 108" x 60". Each half is 54" x 60".

The conversion kit comes with a ping pong net, 3 balls, and 2 paddles. The glass sits on rubber riser blocks and a walnut X in the middle, and the net sleeves onto the glass top. Switch from playing pool to pong in just a few minutes.
