

SERENITY SHUFFLEBOARD

Woolsey was inspired by the combination of textures and visual harmony seen in the very popular series of Yuki Kawasaki garden videos. The curving repeating patterns, soft textures and the simple rake tools seen in Zen gardening all served as a calming visual impression that worked itself into the soul of the Serenity Shuffleboard design. Very easy on the eyes and pleasing to play, we know that the Serenity Shuffleboard will provide you years of enjoyment.

The Serenity Shuffleboard table has solid walnut legs (with hidden leg levelers) which have cove grooves cut out as well as matching cove curves in the top walnut rails of the table.

The Serenity features a solid rock maple top, with a UV resistant epoxy resin topcoat that is ready for years of puck sliding gameplay.

The gutters are lined with a quilted upholstery faux leather, which softens the sound of pucks coming off the maple top. Climatic adjusters level out the plank during changes in the weather. Black walnut is meticulously inlaid as the lines and the numbers on the plank of the Serenity Shuffleboard.

A spit top walnut conversion table is also available as an add on.

9'-20' sizes available.

Overall size is 31" wide x 31" tall.

Conversion tops are available. Inquire for pricing.

All our shuffleboard tables come with pucks and a wall rack that holds the pucks when not in use.

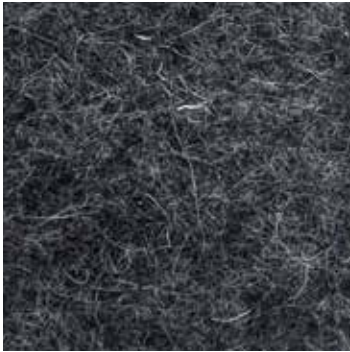

Add one of our scoreboards to your table for \$750. The wood will match your handrail. Our scoreboard is permanent and mounted into the wood toprail with brass bars. Brass thumbscrews smoothly move along the scoring area as you play.
