

## WOLF DESK

The Wolf Desk. Originally designed for the photo taking wizards over at Wolf Camp Studios, this design was so sexy that we had to add it to the range. Fully constructed out of Black Walnut with a straight forward and elegant mid century inspired design. The top apron is a continuous board of walnut with a lockable drawer. The drawer slides are made of brass, as well as brass pins on the front of the drawer match the lock. Store and lock your valuables in the drawer with ease.

The desk comes with our signature built-in leather mouse pad that only can open with a strong magnetic wood geode (provided), and allows for perfect storage of writing instruments, notepad, and mouse.

The Wolf Desk is finished with our natural hand rubbed oil and wax finish.

Lead time is 4-6 weeks unless a rush order is placed.

Dimensions: 60" x 30" x 30" T.
